Jennifer,

I have reviewed the attachments and I do approve of the change to the screen grab you sent. I have done research in our office and have no idea how this error was made. There has never been an annexation of our school property into the city limits. I appreciate your help. If you need anything further from my office, please let me know.

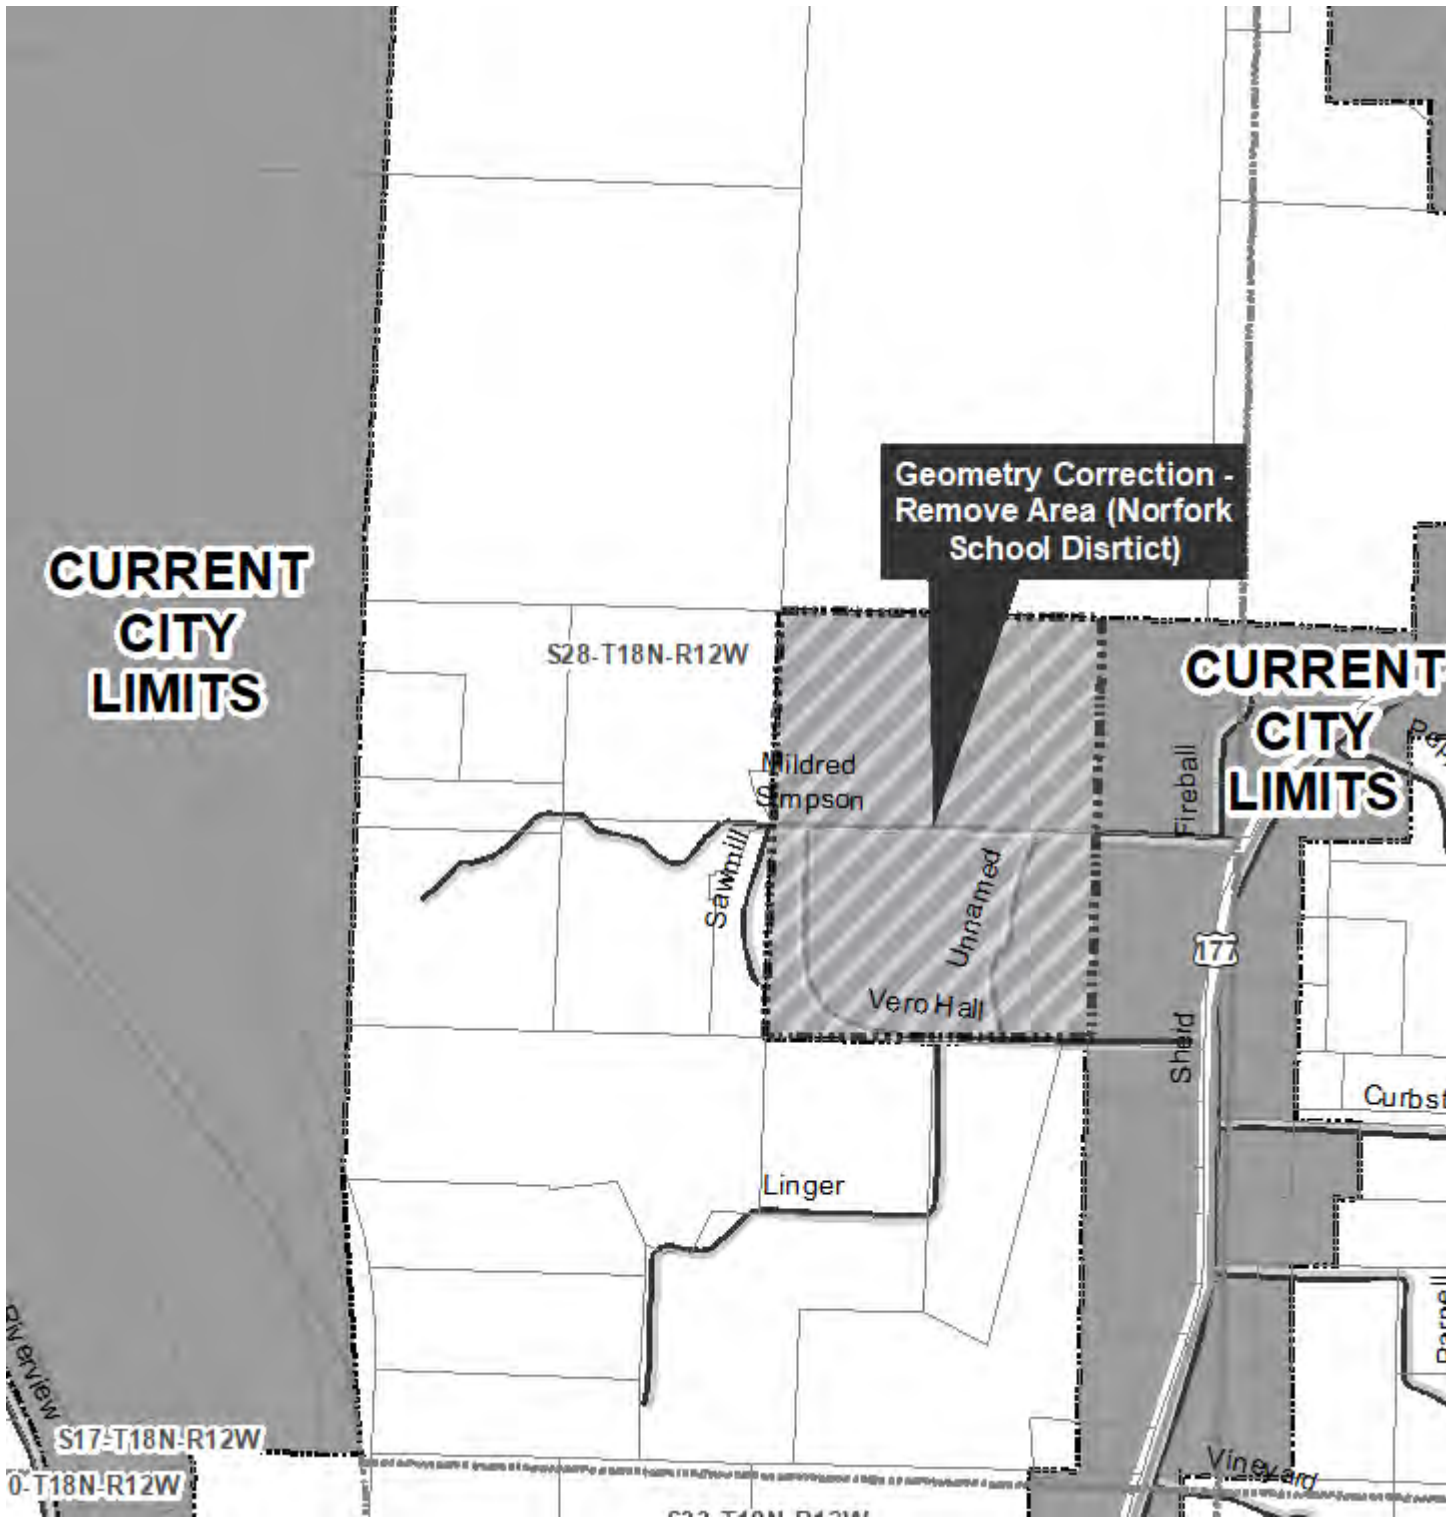

Lisa Harrison, Mayor

Mayor Harrison,

It's been brought to our attention that the state map (which feeds into the Census maps) may have an error for an area that includes the Norfolk School District. After researching historic annexations we were unable to find the annex that brought this in—meaning it may have been drawn in error some years ago. Normally in these cases we ask the Mayor of the city to confirm via email or letter that they agree the correction should be made.

Attached is a large map we received from your office some time ago, as well as a smaller map showing where we would make the corrections. I also included a screen grab of the possible correction below. Can you please review these attachments and let me know if you approve these changes? Please feel free to call if you have any questions.

Thank you,

Jennifer Wheeler – GIS Analyst
